

If you are providing your own artwork here are a couple of tips to help you out.

Files should be supplied with a minimum resolution of 300dpi in CMYK colour.

All fonts should be converted to outline (curves) or be included with the artwork file.

If you find your finished file size to large to send try reducing the original size down to 25% of the finished size, ie. a 6ft x 2ft banner (72" x 24") can be set at a size of 18" x 6" keeping the resolution to a minimum of 300dpi.

All text, logos and photos should be kept a minimum of 0.25" (5mm) from the edge.

Files should be supplied without crop marks or bleed as we will set these.

Pantone colours cannot be accurately matched when printing in CMYK colour, If you require a specific Pantone colour please advise at time of order and we will try to match them as best we can.

We accept the following design applications:

- CorelDraw
- MS Word
- MS Publisher
- Adobe Illustrator
- Adobe Indesign
- Adobe Photoshop
- Adobe Pagemaker
- Adobe Postscript File

We can also accept files in .jpg .tiff .gif .pdf but please make sure the they are saved with the minimum compression to allow for maximum print quality.

Files can be sent by email to [artwork@bigmediaprint.co.uk](mailto:artwork@bigmediaprint.co.uk) or sent to the address below on CD, DVD, ZIP etc.

or uploaded to <ftp.thesignlab.co.uk> Username: **bigmedia** Password: **artwork**

**If you have any problems or questions regarding the setting of your own artwork please feel free to contact us on 01253 761000 or email [artwork@bigmediaprint.co.uk](mailto:artwork@bigmediaprint.co.uk)**
